WORK EXPERIENCE

Cloudfinch, Mumbai November 2024 - August 2026

Frontend Developer II

- Led the frontend migration to Vue 3/Nuxt with TypeScript, improving development efficiency by 40% and maintainability across the platform.
- Built responsive 3D real-time analytics dashboards with Highcharts, delivering actionable insights for stakeholders across 50+ facilities.
- Developed Google Maps API integration and a live data tracking system for 100+ BPCL sites, enhancing operational visibility.
- Implemented authentication and authorization with custom 2FA using Google Authenticator and CAPTCHA, Nuxt Security, and strict RBAC; enabled India-only geofencing and reduced security incidents by 95%.
- Designed responsive, device-agnostic web dashboards, resulting in 30% higher user engagement across mobile and desktop.

Vivanet, Pune September 2022 - October 2024

Software Engineer II

- Built and delivered the NorthStar career guidance web application using React, Tailwind CSS, Azure, and OpenAI APIs; delivered data-driven, AI-powered career pathways for 10,000+ users with a 4.8-star rating.
- Engineered the Oye Creators creator showcase web platform with OTPless authentication, Instagram Graph API, and an analytics dashboard using React, TypeScript, Laravel, and MySQL.
- Developed a multiplayer Tower Defence game in Java Processing, applying object-oriented design principles and performance optimizations for real-time gameplay.
- Co-architected the Palate food marketplace backend and GraphQL microservices using AWS Cognito, S3, Lambda, and Spring Boot, improving data throughput by 50% and reducing API response time by 35%.

PROJECTS

AI-Powered CX Reply Assistant

Built and deployed an AI-powered CX assistant that generates policy-grounded customer replies. Implemented human approval, editing, regeneration, guardrails, safe fallbacks, and audit logging. Added secure multi-brand access using Supabase Auth, PostgreSQL RLS, and Edge Functions. Live demo: <https://cx-reply-assistant.vercel.app>
React, TypeScript, Supabase, OpenRouter, Vercel, Tailwind CSS

Rampart AI EHS Platform

Cloudfinch

Engineered a unified EHS, ESG, Audit, and Risk Management web platform at Cloudfinch using React, Next.js 15, shadcn/ui, and Tailwind CSS. Built responsive, accessible React interfaces enabling real-time risk intelligence and compliance management across Energy,

Manufacturing, Healthcare, and Aviation sectors.
React, Next.js 15, shadcn/ui, Tailwind CSS

BPCL HSSE Platform Cloudfinch

Modernized a nationwide safety management web platform for Bharat Petroleum Corporation. Built real-time dashboards, live maps with Google Maps API, 3D analytics with Highcharts, secure RBAC, and comprehensive event management adopted by BPCL refineries and 100+ facilities.
Vue 3, Nuxt, TypeScript, Google Maps API, Highcharts

CargoGen Logistics Platform Cloudfinch

Developed a full-stack logistics management system at Cloudfinch using FastAPI (Python), React, and Next.js, with shipment tracking, port-to-port routing using the Searates API, real-time status updates, and inventory management.
FastAPI, Python, React, Next.js, Searates API

SkillJourney Career Platform Vivanet

Architected and deployed an AI-powered career guidance web platform with React, OpenAI integration, and Azure Functions using Python, delivering personalized career pathways for 10,000+ active users.
React, OpenAI, Azure Functions, Python

Oye Creators Vivanet

Launched a creator showcase web platform with OTPless authentication, Instagram Graph API integration, an analytics dashboard, and content management features.
React, TypeScript, OTPless, Instagram Graph API, Laravel, MySQL

Palate Marketplace Backend Vivanet

Co-architected a GraphQL microservices backend with Spring Boot, AWS Lambda, Cognito, and S3, achieving a 50% improvement in data throughput and a 35% reduction in API latency.
GraphQL, Spring Boot, AWS Lambda, Cognito, S3

Personal Book Manager Personal Project

Built and deployed a full-stack reading-list application using Next.js, Express, MongoDB, and JWT authentication, with book management, status tracking, dashboard statistics, and responsive UI.
